# DRP

## À propos de DRP

DRP, referring to «DROP,» is the festival and magazine dedicated to street culture that brings together all communities and generations around common passions. The drop culture emerged in 1985 with the release of the Jordan 1 sneakers: originally sold for \$65, a pair can now be resold for over \$50,000. Combining exclusivity and rarity, this phenomenon generates genuine enthusiasm that currently captivates all industries and brands. Launched in June 2022, the DRP festival is the annual event that celebrates urban culture in France through a curated program, and unique and innovative experiences. It's a vibrant artistic and urban extravaganza spanning a two day festival, with its second edition taking place from Saturday, September 30 to Sunday, October 1, 2023, in the Jardin des Tuileries.

(Friday, September 29, 2023: Opening day in advance reserved for fashion professionals)
